Description

I have been using HTML service on a 32bit machine for the last few years, but have noticed there isn't a 64bit windows or linux version.
Could you make a 64bit windows & 64bit Linux version or send me to source so I can.
Many thanks

Hi Andrew,

The html service is not supported any more from us.

Pleas contact us by email if you need the last known sources.

Kind regards

Pierre
