Description
The GET_TEXT command doesn't detect when the same text is written 2 times at the same place on some PDF files.

History

#1 - 06/14/2012 11:23 AM - Pierre Marc

- Status changed from New to Resolved

- % Done changed from 0 to 100

- Tested changed from No to Yes

This is not really a bug. If the information is writtent 2 times in the PDF, it's normal that the command reads it 2 times. Now we added a filter in order to remove double text blocs (same text at the same place).
